Soft Skills

- Problem-Solving & Critical Thinking
- Teamwork & Collaboration
- Adaptability & Continuous Learning

Technical Skills

- HTML 5, CSS 3, Javascript
- C++, Java SE
- Php

Technologies

- React
- Git & Git-Hub
- Mysql

Certifications And Courses

- [Mchine Learning With Python](#)
- Certificate of training in C++

Languages

- English
- Hindi
- Punjabi

Introduction

Highly motivated Computer Engineer with a passion for web development, data structures, and algorithms. Experienced in creating web applications using HTML-5, CSS-3, JavaScript, PHP, React and MySQL. Proficient in C++, Java SE & python. Seeking a challenging position in a dynamic organization that values innovation and excellence.

Internships

- May-June 2024 CodSoft | Web Development Internship

Major Project Experience

2024	<u>Loan Approval Prediction System</u>	Machine learning algorithms
	<ul style="list-style-type: none">• The main objective of this project is to predict whether assigning the loan to a particular person is safe or not.• Used Logistic Regression, Linear Regression, and Random Forest for predictive modeling & Applied GridSearchCV and cross-validation, improving accuracy by 15%.	
2023	<u>Wassup : A.I. chatbot</u>	Using MongoDB, Express.js ,Node.js
	<ul style="list-style-type: none">• Developed an AI chatbot named "Wassup" using MongoDB, Express.js, and Node.js technologies.• Implemented natural language processing (NLP) algorithms to understand and respond to user queries effectively.• Integrated MongoDB for data storage, enabling the chatbot to remember user preferences and conversation history.• Leveraged Express.js for handling HTTP requests and responses, ensuring seamless communication between the chatbot and users.	
2022	<u>Banking Management System</u>	Implementation of C++ and its development
	<ul style="list-style-type: none">• Developed a Banking Management System using C++ for efficient handling of banking operations.• Implemented features for account management, including account creation, deletion, and modification.• Integrated functionalities for depositing, withdrawing, and transferring funds between accounts.• Designed a user-friendly interface allowing customers to perform banking transactions easily.• Implemented security measures such as password protection and encryption to ensure data confidentiality.	

Education

2021 - 2025	B.Tech 8.45 CGPA Computer Engineering	Graphic Era Hill University, Nainital (Uttarakhand)
2020 - 2021	Intermediate 81.6%	Saraswati Vidhya Mandir , Gadarpur (Uttarakhand)

Achievements

2023-2024	<ul style="list-style-type: none">• Qualify for the 3rd Round of "Unstop Talent Park-Tech"• Participated in "HackOn With Amazon : Season 3"• Participated in the mega IT quiz "Tech Wizards 2.0"• Participated in season 1 "Boat Wavemaker's Challenge"• Solved more than 150+ questions on LeetCode ,GFG combined
